

Black Lace And Diamonds

Jean Monroe

C **F**
Way in the distance, when our love was new,
G **C**
We passed many wonderful nights
C **F**
We roamed the wild country, counting the trees
G **F C G C**
Watching the stars in the flickering firelight

The trees looked like black lace up there in the darkness
The stars were like diamonds, scattered above
Their magic surrounded us there in the moonlight
Black lace and diamonds, you gave me your love.

F **C**
Black lace and diamonds are all I remember
G **C** **C7**
There as I held you, a fool to your charms
F **C**
And as our campfire burned to an ember
G **F C G C**
Black lace and diamonds, and you in my arms

Nothing's forever, at least so they tell me
Memories fade, and love will grow cold
The pictures of you in your black lace and diamonds
I hold in my heart will never grow old.

Chorus

[instrumental break]

Chorus
