

Come With Me

Susan Crowe

C
Come with me, I'll show you the
F
way

C G C
Will you follow me into this night

C F
Come with me, relinquish this day

C G
And the angels will hasten our

C
flight

F C
I will not follow you into the dark

F
Who knows what morning will

C . . . G
find

C F
Stay with me, never to part

C G
How can you leave your true love

C
behind

Come with me, you promised to
be
My companion through all of our
days
Come with me, it's easy you'll see
How you just let the light slip
away

*I have been faithful through
heartache and tears
True in the way that I know
Stay with me, I'm troubled, I'm
weary*

But I am not ready to go

F C
Listen to these words I whisper

F C . . . G
Press your lips to mine

F C
Keep me in your arms forever

C . . . G
entwined

Come with me, the darkness has
fallen

I step from the circle of time
Come with me, the voices are
calling

I weep for to leave you behind
*For so many years I have walked
by your side*

Your hand was pressed in my own

*Sail away, slip out with the tide
For some day both our hearts will
be home*

*Sail away, slip out with the tide
For some day both our hearts will
be home*
