

It's A Lovely, Lovely World

Carl Smith - 1947

C
Mother Nature's opened up the door
C
To lots of things I never saw before,
G₇ C
It's a lovely, lovely world since I met you.
C
Never did see everything looking so nice,
C
I just learned the meaning of paradise,
G₇ C
It's a lovely, lovely world since I met you.
F C
Now the sun shines brighter, and the sky is a little bit bluer,
C
And my little old rattletrap Ford coupé
C G₇
Even seems a little bit newer.
C
My guitar stays a little better in tune,
C
The stars shine brighter, there's honey on the moon,
G₇ C
It's a lovely, lovely world since I met you.

Ever since you cuddled in my embrace
I've had more faith in the human race,
It's a lovely, lovely world since I met you.
Now I don't mind working or slaving all day,
Cause I know tonight there'll be love to pay,
It's a lovely, lovely world since I met you.

Everything seems natural and right since the day I found you.
Everything looks rosy and shiny bright
In the dreams I'm building around you.
Used to think that miracles would never come true,
But now I'm happy cause I know they do
It's a lovely, lovely world since I met you.
